DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

a. Claims 1 - 18 are allowable over the Prior Art of Record because it fails to teach or suggest an angle measuring system comprising a coupling connected to said base and said stator so that a torsion-proof connection between said base and said stator results, wherein said coupling permits radial and axial compensating movements of said stator with respect to said base and said axis of rotation, wherein a first stop at said base and a second stop at said stator limits said radial and axial compensating movements in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
